

EURADOS: history and funding

- **Founded in 1981**
- **Supported by EC Framework programmes (FP3-4-5-6), up to 2008**
 - **FP6: CONRAD project (which indirectly lead to ORAMED)**
- **2008: transformation to German eV**
 - **Sponsoring by institutes**
 - **Income from projects**
 - **Income from intercomparisons, training courses, organisation of conferences**

EURADOS: structure

- **Chairman: Helmut Schumacher (PTB)**
- **Vice-chairman: Elena Fantuzzi (ENEA)**
- **Secretary: Filip Vanhavere (SCK-CEN)**
- **Treasurer: Joao Alves (ITN)**
- **Council: 12 members**
- **54 voting members: European laboratories**
- **More than 200 associated members: scientists**

- **Coordination of working groups**
 - **Which promote technical development and its implementation in routine work**
 - **Which contribute to compatibility within Europe and conformance with international practices**
- **Organization of scientific meetings and training activities**
- **Organization of intercomparisons and benchmark studies**

Current working groups

- **WG2: Harmonization of individual monitoring in Europe**
 - **Subgroup: organization of intercomparisons**
- **WG3: Environmental dosimetry**
- **WG6: Computational dosimetry**
- **WG7: Internal dosimetry**
- **WG9: Radiation protection dosimetry in medicine**
- **WG10: Retrospective dosimetry**
- **WG11: High energy radiation fields**
- **WG12: European Medical ALARA network**

Working groups

- **WG2: Harmonization of individual monitoring in Europe**
 - **Subgroup: organization of intercomparisons**
- **WG3: Environmental dosimetry**
- **WG6: Computational dosimetry**
- **WG7: Internal dosimetry**
- **WG9: Radiation protection dosimetry in medicine**
- **WG10: Retrospective dosimetry**
- **WG11: High energy radiation fields**
- **WG12: European Medical ALARA network**

Working groups

- **WG9: Radiation protection dosimetry in medicine**
 - **Peripheral doses in radiotherapy**
- **WG12: European Medical ALARA network**
 - **EURADOS is partner**
 - **WG creates input for EMAN**
 - **Partially from ORAMED**
 - **Also 3 other topics handled**
 - **Staff dosimetry at CT fluoroscopy (staff)**
 - **Trigger levels for patient skin doses in interventional radiology/cardiology**
 - **Technical aspects on DAP and CT calibrations**
